

LUBE GARD®

PREMIUM UNIVERSAL LUBRICANT

U.S. Patent 5,282,989

DESCRIPTION: LUBEGARD® PREMIUM UNIVERSAL LUBRICANT is formulated for the safe assembly and disassembly of transmissions, engines, gear boxes, pumps or any other general use. It also can be used as a general purpose lubricant in applications, including, but not limited to, automotive, marine, industrial, household, small equipment, recreational and other general use.

This unique product contains LXE® (Liquid Wax Esters) Technology, which allows the product to strongly attach to metal surfaces giving superior lubrication properties. It protects equipment and is non-harmful to the user and environment. The active ingredients of LUBEGARD® PREMIUM UNIVERSAL LUBRICANT do not contain solid particles, or petroleum solvents.

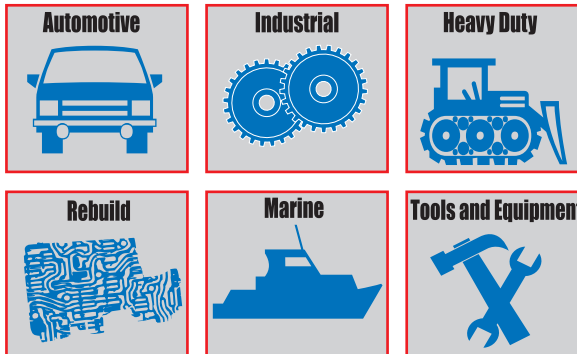

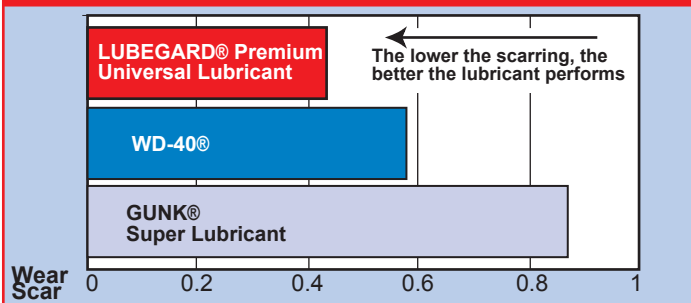

BENEFITS:

- Specially designed for the automotive industry, but great for general lubrication needs
- Keeps valves and governors free during assembly
- Easy to use, simplifies and expedites the transmission assembly process
- Contains New Biosynthetic formula with superior cold flow properties
- Environmentally responsible, non-aerosol and non-flammable, Biodegradable (EPA/560/6-82/003 and aquatically non-toxic (EPA/600/4-90/027), user friendly
- Lubricates solenoid valve & other mechanical components
- LXE® Technology has a natural polarity that strongly attaches to the metal surfaces providing superior lubrication
- Excellent penetrant and protects against rust
- Not harmful to seals or O-rings, or wiring harnesses

AVAILABILITY:

Stock No.	Unit Size	Case QNTY
61016	16 oz.	(6/case)
61004	8 oz.	(12/case)
